Where Price Transparency meets Affordability

Remain at the forefront of transparency, empowering members to make informed choices

In an era where healthcare costs are ever-rising, and regulatory requirements are intensifying, Deerhold's PRIZM Shopping provides a cutting-edge consumer shopping tool designed to meet the mandates of the Transparency in Coverage (TiC) Rule at a fraction of the cost for payers and group health plan sponsors. With PRIZM Shopping, consumers gain the clarity needed to make informed decisions through personalized access to cost sharing information for healthcare services.

Why PRIZM Shopping Stands Out

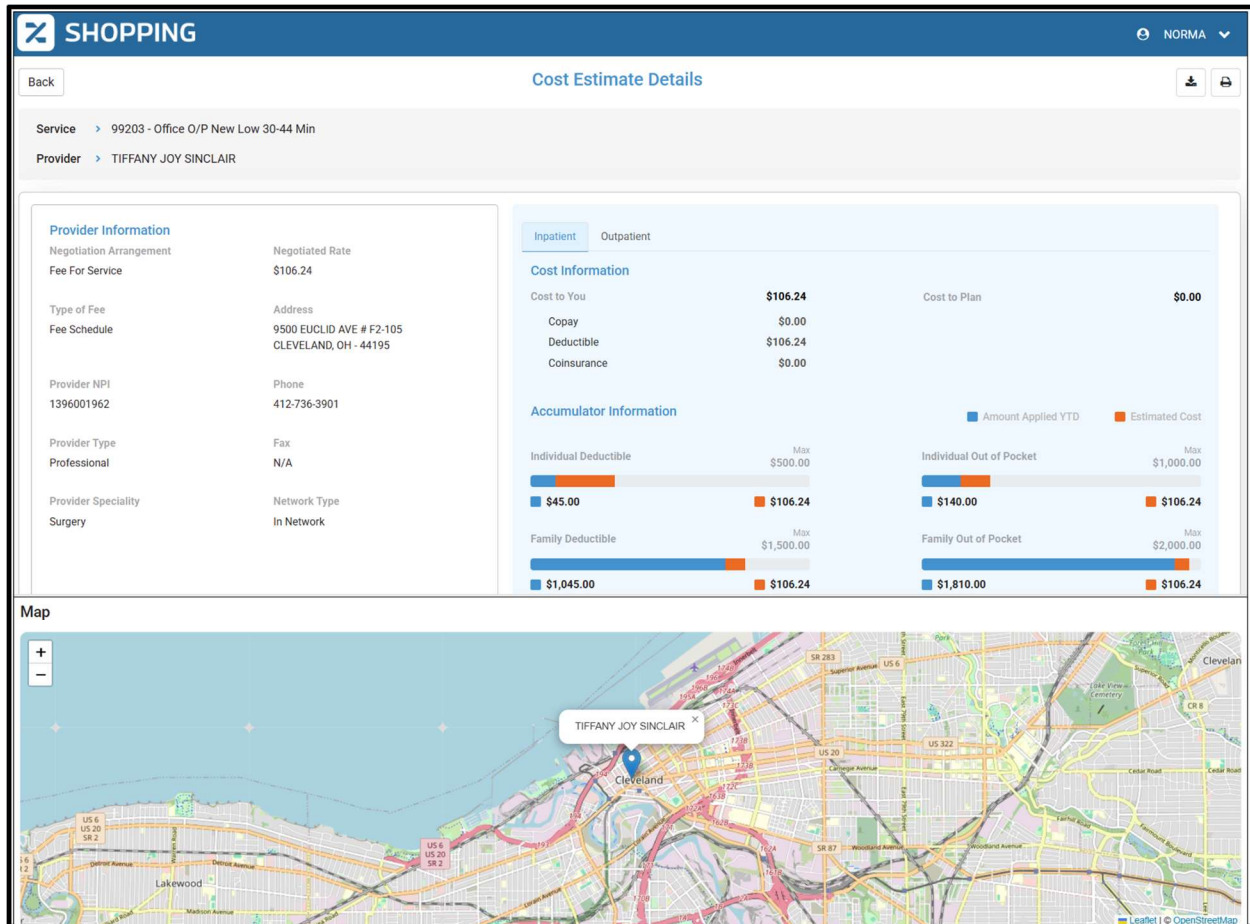

Expertise in Data Management: Leveraging Deerhold's longstanding proficiency in handling, aggregating, and synthesizing vast amounts of data, PRIZM Shopping transforms the most recent price transparency data into a user-friendly shopping experience.

Peace of Mind at a Fraction of the Cost: Maintain full compliance with the latest transparency legislation while providing a positive ROI to your employer group customers.

Real-Time Insights: With the integration of eligibility and accumulator information, PRIZM Shopping offers members a real-time view of their deductible status and accumulator data,

enhancing their healthcare planning and decision-making process.

Customizable and Brand-able: Our software development team ensures that PRIZM Shopping seamlessly integrates with your branding, conveying trust and reliability to your members as a service from their plan administrator.

WHY DEERHOLD?

We KNOW this space

Two decades of experience working with healthcare stakeholders to elevate their business.

We're data & tech savvy

Healthcare data and BIG data is our forte. We have the infrastructure in place to handle massive data and the tech to make it easily accessible.

No frills

We believe in getting the job done efficiently. We're on board to deliver true value at a fraction of the cost of other solutions.

Explore the PRIZM platform for the full spectrum of insights made possible with healthcare price transparency data.
